Forwarding copy of proceedings sanctioning estimates, aggregating to Rs. 8,889, for the construction of quarters for subordinates employed on the —.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

---

**Irrigation.**
**Account.**

READ—the following papers:—

I

*Letter*—from J. H. MEDLICOTT, Esq., Superintending Engineer, VI Circle.
*To*—the Chief Engineer for Irrigation.
*Dated*—Trichinopoly, the 29th June 1908.
*No.*—350 C.E.

1. Constructing quarters combined with telephone shed for the section officer at Andipatti and huts for two lascars—Estimate, Rs. 4,595.
2. Constructing sub-section officer's quarters at Kallandri—Rs. 1,550.
3. Constructing quarters at Pulipatti and huts for two lascars—Rs. 2,385.
4. Improvements to the sub-section officer's quarters at Chittampatti—Rs. 490.

I have the honour to forward herewith, for your approval and sanction of Government, the marginally-noted estimates for constructing quarters.

(i) At Andipatti for the officer in charge of No. I section (in the Periyár delta) comprising the head works at Peranai and the first about 20 miles of the Periyár main canal with all the branch and distributary channels within the area.

(ii) At Kallandri for the sub-section officer in charge of the main canal from the 20th mile up to the head of 9th branch channel with all the branch and distributary channels within the area.

(iii) At Pulipatti for the sub-section officer in charge of the regulator at the head of the XI and XII branch channels, the whole of the XI branch channel and a portion of the XII branch channel with all distributaries within the area.

(iv) Huts for four lascars, two at Andipatti and two at Pulipatti.

(v) For improvements to the sub-section officer's quarters at Chittampatti.

2. To facilitate communication through telephone for the proper management and economical regulation of water in the Periyár delta, provision has been made for a telephone room in the quarters of the section and sub-section officers. The proportionate cost (calculated on the plinth area reserved for the telephone room and for the quarters) of each of the quarters and of the telephone shed is given in the statement attached to the estimate.

3. The necessity for these works is explained in the report accompanying the estimate and the enclosed blue print will show that these quarters are proposed to be located at suitable places with reference to the telephone line and the Periyár channels which are also shown on the sketch map.

4. The No. 1 section referred to in paragraph 1 above is now in charge of a temporary upper subordinate on Rs. 80, but it might be held by any upper subordinate (from temporary overseer on Rs. 60 to Sub-Engineer, first grade). Hence for purpose of calculating rent of the building, the average salary of the occupant may be fixed at Rs. 100.

The sub-sections where quarters are now proposed are now held by sub-overseers, second grade and third grade, who may, at times, be replaced by men of the first grade.

5. The calculated rental of the proposed quarters, under Public Works Code, paragraph 919, taking $1\frac{1}{2}$ per cent. for ordinary repairs and 1 per cent. for special repairs, works out to the amount shown in the data statement enclosed. These rates exceed the 8 per cent. and 10 per cent. limits laid down in paragraphs 917 I and 919, Rule I (*b*).

As it is essential in the interest of irrigation that the section and sub-section officers should reside at suitable places in their jurisdiction for the proper discharge of their duties, chiefly in the matter of water regulation, I have the honour to request you to be so good as to obtain the sanction of Government to the occupation of the quarters rent free under paragraph 919, Rule IV, so long as they are occupied by subordinates drawing less than Rs. 50 per mensem. Should they be occupied by a subordinate drawing more than Rs. 50 up to Rs. 100, a monthly rental of a sum equivalent to 5 per cent. of the salary of the occupant may be collected under Public Works Code, paragraph 919 IV (*b*).

6. Quarters constructed for the sub-overseers at Mettupatty and Thaniamangalam have been found to be most suitable for the purpose and the same plan has been adopted for the proposed quarters at Kallandri and Pulipatti.

What is provided for in the plan of the quarters for the section officer is necessary and no reduction in the accommodation can be made.

The huts for the lascars will be constructed on the type-design for quarters for Police constables issued with G.O., No. 1778 W., dated 24th August 1906.

7. The rates provided in the estimate are reasonable and early sanction to the estimate is requested.

---

Enclosures.

*Report to accompany the estimate for building quarters for an Overseer and two Sub-Overseers in the Periyár delta.*

| | |
|---|---|
| | RS. |
| Amount of estimate for overseer's and lascars' quarters ... ... | 9,020 |

For the effective use of the telephone and the economical regulation of water in the delta, it is very desirable that those subordinates charged with the regulation of water should be close to the telephone stations. When Mr. S. D. Pears was Superintending Engineer of this Circle the matter was discussed with him and he ordered the preparation of the above estimates.

2. There are at present 3 overseers and 7 sub-overseers in the delta. The accompanying map shows the existing telephone and sub-overseers' quarters. The sub-overseers of Peranai, Mettupatti, Chittampatti and Thaniamangalam have been provided with Government quarters and the telephone is suitably located at the two first places. It is propsed to add a telephone room to the sub-overseer's quarters at Chittampatti, to supply this want. It is also proposed to build quarters for an overseer on the main canal at Andipatty and for two sub-overseers at Kallandri and Pulipatti also on the main canal with huts for 2 lascars at Andipatti and Pulipatti on the same design already approved for the lascars' sheds at Peranai and recently sanctioned.

3. There will be two overseers and one sub-overseer still to be housed. One overseer has his head-quarters at Mélúr, where he can get accommodation in the town.

It is not yet quite clear where the remaining overseer and the remaining sub-overseer should be permanently statioued. In order to prevent a waste of Government money, it is considered best to wait for a few years more for the further development of the delta.

The quarters provided for the sub-overseers have been found by experience to be not smaller nor larger than is suitable. The quarters now proposed for the overseer provide for what is considered necessary, although it is possible that they are rather expensive.

The walls will be founded on concrete blocks and will be of stone in mortar with a tiled roof and mud floor, except in the case of overseer's quarters which are partly terraced with cement floors.

R. deChazal,
*Executive Engineer, Madura Division.*

*20th December* 1907.

**Statement** showing the proportionate cost of the various buildings estimated for construction in the Periyár area.

## III

### Note by the Chief Engineer for Irrigation.

The Superintending Engineer, VI Circle, submits four estimates, aggregating Rs. 9,020, * for constructing, at the places shown below, subordinates' quarters with telephone rooms, and sheds for lascars employed on the Periyár system :—

* For "works."

(1) Andipatti—

| | RS. |
|---|---|
| Section officer's (overseer's) quarters ... ... ... ... | 3,416 |
| Telephone room ... ... ... ... ... ... ... | 349 |
| Two lascars' sheds ... ... ... ... ... ... ... | 830 |
| Total estimate ... | 4,595 |

(2) Kallandri—

| | |
|---|---|
| Sub-overseer's quarters ... ... ... ... ... ... | 1,261 |
| Telephone room ... ... ... ... ... ... ... | 289 |
| Total estimate ... | 1,550 |

(3) Pulipatti—

| | |
|---|---|
| Sub-overseer's quarters ... ... ... ... ... ... | 1,259 |
| Telephone room ... ... ... ... ... ... ... | 351 |
| Two lascars' sheds ... ... ... ... ... ... ... | 775 |
| Total estimate ... | 2,385 |

(4) Chittampatti—

| | |
|---|---|
| Improvements to sub-overseer's quarters ... ... ... ... | 190 |
| Telephone room ... ... ... ... ... ... ... | 300 |
| Total estimate ... | 490 |
| Grand total ... | 9,020 |

It is stated that these buildings are found necessary in order that the subordinates concerned may be enabled to live at suitable places within their jurisdiction for the proper performance of their duties.

2. As regards the section officer's quarters at Andipatti, the Superintending Engineer states that this section might be held by any subordinate ranking from a temporary overseer on Rs. 60 to a Sub-Engineer on Rs. 400, and that the average salary of the occupant of the building might be fixed at Rs. 100 for the purpose of calculating the rent leviable on it. As ordinarily no one above the rank of a supervisor is placed in charge of a section, the average salary may be taken as Rupees $\frac{60 + 200}{2}$ or Rs. 130, which will admit of an outlay of Rs. 2,270 on the building. In order to bring the cost of the quarters within the above limit, the design submitted by the Superintending Engineer has been altered in this office and the amount of the estimate reduced to Rs. 2,150. The amounts provided for the telephone room and lascars' sheds at this station have also been altered to Rs 415 and Rs. 810 respectively.

3. It is recommended that the above estimate for the quarters at Andipatti, as revised in this office, together with those for the buildings at Kallandri and Pulipatti, be sanctioned. The estimate for improvements to the sub-overseer's quarters at Chittampatti and the telephone room may be approved and returned to the Superintending Engineer to be dealt with by him with reference to Circular No. 896 C., dated 7th February 1908, of the Chief Engineer, Public Works Department.

C. A. SMITH,
*Chief Engineer for Irrigation.*

---

**Order—No. 434 I., dated 23rd November 1908.**

The following estimates are sanctioned:—

Imperial.
Capital Expenditure not charged to Revenue.
49. Irrigation.
Periyár System.
Open Capital Account.
I. Works.
2. Main Canals and Branches.
K. Buildings.
Unremunerative Work.

| | | RS. |

PUBLIC WORKS DEPARTMENT
(IRRIGATION BRANCH).

# NOTES CONNECTED WITH G.O., Nos. 434–35 I., DATED 23RD NOVEMBER 1908.

[SUBJECT.—*Constructing quarters for certain officers of the Public Works Department, VI Circle.*]

*From the Superintending Engineer, VI Circle, dated 29th June* 1908, *No.* 350-*C.E.*

*Under Secretary*—

The Superintending Engineer submits the following estimates for sanction :—

| | RS. | RS. |
|---|---|---|
| (1) *Andipatti*— | | |
| Section officer's (overseer's) quarters ... ... ... | 3,416 | |
| Telephone room ... ... ... ... ... ... | 349 | |
| Two lascars' sheds ... ... ... ... ... | 830 | |
| | —— | 4,595 |
| (2) *Kallandri*— | | |
| Sub-overseer's quarters ... ... ... ... ... | 1,261 | |
| Telephone room ... ... ... ... ... ... | 289 | |
| | —— | 1,550 |
| (3) *Chittampatti*— | | |
| Improvements to sub-overseer's quarters ... ... | 190 | |
| Telephone room ... ... ... ... ... ... | 300 | |
| | —— | 490 |
| (4) *Pulipatti*— | | |
| Sub-overseer's quarters ... ... ... ... ... | 1,259 | |
| Telephone room ... ... ... ... ... ... | 351 | |
| Two lascars' sheds ... ... ... ... ... | 775 | |
| | —— | 2,385 |

2. These quarters are stated to be necessary for the section officer, sub-overseers and lascars to live in, in their respective jurisdiction in the interests of irrigation for the proper regulation of water. The telephone rooms are required to house the instrument and receive and despatch telephone messages, telephone communication having been established between these stations.

G.O., No. $\frac{656}{A}$ I., dated 2nd July 1903.
" " 583 I. " 30th May 1906.

3. *Section officer's quarters at Andipatti.*—The Superintending Engineer states that this section might be held by a subordinate ranking from an overseer on Rs. 60 to a Sub-Engineer on Rs. 400 and that the average salary of the occupant might be fixed at Rs. 100. But ordinarily none above the rank of a supervisor is placed in charge of a section. The average salary of the occupant of the building may, therefore, be taken as Rs. $\frac{60 + 200}{2} = 130$ in determining the permissible capital cost. Allowing $3\frac{1}{2}$ per cent. on account of interest and 2 per cent. on account of ordinary and special repairs in accordance with paragraph 14 of the Chief Engineer's Memorandum No. 5810 C., dated 27th November 1907, the permissible cost of the building would amount to Rs. 2,270. As the Superintending Engineer's estimate amounts to Rupees 3,416, it has to be considered whether it is not susceptible of reduction. If not, the estimate will require India's sanction—Code paragraph 917-II.

4. *Sub-overseers' quarters at Kallandri and Pulipatti.*—It is stated that the plan of the sub-overseers' quarters at Mettupatti and Thaniamangalam has been adopted for these two buildings, but the cost of the buildings at Mettupatti and Thaniamangalam according to the estimates sanctioned in G.Os., No. 137 I., dated 30th January 1902, and No. 308 I., dated 10th March 1902, is Rs. 750 and 775, respectively. It is a matter for consideration whether the estimates of Rs. 1,261 for Kallandri and Rs. 1,259 for Pulipatti cannot be reduced in cost. The estimates may be sanctioned by the local Government in accordance with Code paragraph 917-IV.

5. *Lascars' sheds.*—According to the estimates submitted by the Superintending Engineer each shed costs from Rs. 390 to Rs. 415, but the cost of each shed constructed on the sanction given in G.O., No. 108 I., dated 2nd February 1904, was only Rs. 270. These estimates may be sanctioned by the local Government. The one for the Chittampatti quarters may be sanctioned by the Superintending Engineer, but Government has to accord administrative approval in accordance with the Chief Engineer's Memorandum No. 896-C., dated 7th February 1908.

6. The Superintending Engineer requests that subordinates drawing less than Rs. 50 each may be permitted the use of the buildings rent free and that 5 per cent. of the salary may be recovered from those who draw from Rs. 50 up to Rs. 100. After the quarters have been constructed, the Superintending Engineer may be requested to submit the necessary application for the sanction of Government.

S. Doraiswami Aiyar.
23-7-08.

Ask the Superintending Engineer to send the detailed plans and estimates referred to in the above notes.

As for the overseer's quarters cut out the passages, reduce the widths of the rooms, also kitchen and godown to 16 and 10 feet and build as much as possible (except foundations and around doors and windows) in mud pointed. If that doesn't bring it down, reduce size of kitchen and godown to 10′ × 10′.

T. W. S. Smyth.
27-7-08.

*Under Secretary*—

The design of the overseer's quarters at Andipatti has been revised according to Under Secretary's instructions and estimated for but still the cost of the quarters together with the stables does not fall within the permissible limit, *i.e.*, Rs. 2,270 mentioned in the notes above. The design has therefore been modified as shown in the revised plan.

| | RS. |
|---|---|
| The cost of this design together with the stables amounts to ... | 2,565 |
| Deduct cost of the portion occupied by the telephone room as actually estimated for ... ... ... ... ... ... | 415 |
| Net cost of the quarters amounts to ... ... ... ... | 2,150 |

Orders are requested if the modified design which provides for all the requirements may be substituted for the one submitted by the Superintending Engineer.

Possible reductions in the other quarters by substituting roughstone in mud in superstructure, for roughstone in mortar (excepting one foot all round the doors and windows) will be only Rs. 275 as detailed below :—

| | RS. |
|---|---|
| In lascars' sheds at Andipatti ... ... ... ... | 60 |
| Sub-overseer's quarters at Kallandri ... ... ... ... | 50 |
| Improvements to sub-overseer's quarters at Chittampatti ... ... | 25 |
| Sub-overseer's quarters at Pulipatti ... ... ... ... | 90 |
| Lascars' sheds do. ... ... ... ... | 50 |
| Total ... | 275 |

The reductions seem trifling. For orders if the above estimates may be altered accordingly and draft order prepared for approval.

M. Vasudeva Aiyar.
24–9–08.

G. E. Brand.
24–9–08.

The office design for the overseer's quarters and telephone sheds may be approved and the Superintending Engineer's estimates for the other works.

T.W.S.S.
28–9–08.

Approved.

C. A. Smith.
23–10–08.

---

*From the Superintending Engineer, VI Circle, dated 2nd October* 1908, *No.* 550-*C.E.*

The estimates have been checked. The design of the quarters for the section officer at Andipatti has been revised in this office and the total amount of the quarters and lascars' sheds at Andipatti has been reduced from Rs. 4,595 to Rs. 3,375.

Constructing Sub-Section officers' quarters at Kallandri, Madura Dt. — Requesting early sanction to the Estimate for —

---

No. 550 CE

Station Satur Dated the 2 October 1908.

From (Name) J. H. Medlicott Esq. Dy. 9

(Designation) Supttg. Engineer, VI Circle

To The Chief Engineer for Irrigation / ~~The Secretary~~ to the Government of Madras,

Public Works Department.

~~Sir,~~

Urgent

Papers.

Recd 12/10/08

8 Letter from Antoine Rene Dechazal Esquire, Executive Engineer, Madura Division, to the Supt^g. Engineer, II circle, Trichinopoly, No 813 S.E of 24.9.08.

---

With my letter no. 898 S.E of 2nd January /08 I sent you an estimate for Rs 8670/- for building quarters for 1 Overseer and 2 Sub-overseers and for building a telephone room for one other Suboverseers' quarters. I do not know whether my proposals have been approved and whether the estimate is likely to be sanctioned, but I would request that if possible, the estimate be sanctioned piece-meal. There can be no doubt that Sub-overseers' quarters are necessary at Kallandri, for that place is our telephone Exchange and the telephone is located in a mud hut about 1/2 mile from the village.

For

For a good many months the Suboverseer has not lived in that hut as he has been decoited twice. I have to make two lascars sleep in the hut at night in order to protect the telephone, I would be saved this expense if the new Suboverseer's quarters near the village can be built at once.

---

No 550 CE

Copy forwarded to the Chief Engineer for Irrigation with a request that the estimate for Constructing Subsection officer's quarters at Kallandri submitted along with 3 other estimates with this office letter No. 350 CE d/ 2-7-08, may be sanctioned at an early date.
